

FORCE ENCOUNTERS ANALYSIS

Understanding Human Performance in Critical Incidents

ABOUT THE COURSE

A concise, evidence-based look at how human performance shapes use of force encounters - and how understanding these factors strengthens both officer performance and investigative clarity.

IDEAL FOR

This course is ideal for patrol officers, detectives, SWAT personnel, professional standards staff, trainers, supervisors, command staff, prosecutors, and members of civilian oversight boards.

WHY IT MATTERS

Science explains why officers act the way they do in rapidly evolving situations. This course strengthens performance and enhances force investigations.

YOU'LL LEARN

- Human performance in high-risk events
- Decision-making under pressure
- Reaction time & fatigue
- Memory limits & perception failures
- Video & BWC interpretation
- Effective de-escalation

Tuition: $595

October 11–13, 2027
